INDEPENDENT AUDITORS' REPORT

Board of Commissioners
Calcasieu Parish Ward 7 Fire
Protection District No. 1
Calcasieu Parish Police Jury
Vinton, Louisiana

We have audited the accompanying basic financial statements of the Calcasieu Parish Ward 7 Fire Protection District No. 1, a component unit of the Calcasieu Parish Police Jury, as of December 31, 2005, and for the year then ended, as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the Calcasieu Parish Ward 7 Fire Protection District No. 1 as of December 31, 2005, and the results of its operations for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued a report dated May 15, 2006, on our consideration of the District's internal control over financial reporting and our test of its compliance with certain provisions of laws, regulations, contracts, and grants. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The management's discussion and analysis on pages 6-11 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements of the Calcasieu Parish Ward 7 Fire Protection District No. 1. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

Our discussion and analysis of Calcasieu Parish Ward 7 Fire District #1 (the District) financial performance provides an overview of the District's financial activities for the fiscal year ended December 31, 2005. Please read it in conjunction with the District's financial statements, which begin on page 12.

FINANCIAL HIGHLIGHTS

For 2005, the total general revenues for the District were \$348,691, compared to \$290,706 in 2004.

During the years ended December 31, 2005 and 2004 the District had total expenses, excluding depreciation, of \$187,242 and \$172,141, respectively.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities (on pages 12 and 13) provide information about the activities of the District as a whole and present a longer-term view of the District's finances. Fund financial statements start on page 14. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds.

The Calcasieu Parish Ward 7 Fire District #1 was determined to be a component unit of the Calcasieu Parish Police Jury. The Police Jury is financially accountable for the district because it appoints the Board of Commissioners and has the ability to impose its will on them. The accompanying financial statements present information only on the funds maintained by the Calcasieu Parish Ward 7 Fire District #1.

Reporting the Calcasieu Parish Ward 7 Fire District #1 as a Whole

Our analysis of the Calcasieu Parish Ward 7 Fire District #1 as a whole begins on page 12. One of the most important questions asked about the District's finances is "Is the Calcasieu Parish Ward 7 Fire District #1 as a whole better off or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities report information about the funds maintained by the District as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. Accrual of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's *net assets* and changes in them. You can think of the District's net assets – the difference between assets and liabilities – as one way to measure the District's financial health, or *financial position*. Over time, *increases* or *decreases* in the District's net assets are one indicator of whether its *financial health* is improving or deteriorating. You will need to consider other non-financial factors, however, such as changes in the District's property tax base, to assess the overall health of the District.

In the Statement of Net Assets and the Statement of Activities, we record the funds maintained by the Calcasieu Parish Ward 7 Fire District #1 as governmental activities:

Governmental activities – all of the expenses paid from the funds maintained by the Calcasieu Parish Ward 7 Fire District #1 are reported here which consists primarily of materials, supplies, fuel, repairs and maintenance, salaries, and other program services. Ad valorem taxes finance most of these activities.

Reporting the District's Most Significant Funds

Our analysis of the major funds maintained by the Calcasieu Parish Ward 7 Fire District #1 begins on page 14. The fund financial statements begin on page 14 and provide detailed information about the most significant funds maintained by the Calcasieu Parish Ward 7 Fire District #1 as a whole. The District's *governmental funds* use the following accounting approaches: Governmental funds – All of the District basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called *modified accrual accounting*, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the District's general government operations and the expenses paid from those funds. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance certain District expenses. We describe the relationship (or differences) between governmental *activities* (reported in the Statement of Net Assets and the Statement of Activities) and governmental *funds* in reconciliations at page 15 and 17.

THE CALCASIEU PARISH WARD 7 FIRE DISTRICT #1 AS A WHOLE

Following is the summary information from the statement of net assets (Table 1) and the statement of activities (Table 2) comparing amounts as of December 31, 2005 and 2004:

Table 1
Net Assets

	Governmental Activities

Total revenues increased \$91,040 (20%) from total revenues in the year ended December 31, 2004 of \$451,482 to total revenues of \$542,522 in the year ended December 31, 2005.

THE DISTRICT'S FUNDS

As the District completed the year, its governmental funds (as presented in the balance sheet on page 14) reported a combined fund balance of \$1,667,568, which is higher than last year's fund balance of \$1,497,195. The primary reasons for the excess are:

- General fund revenues exceeded general fund expenditures by \$161,488.
- Debt service fund revenues exceeded debt service fund expenditures by \$56,622.

General Fund Budgetary Highlights

The District adopted a budget for its General Fund for the year ended December 31, 2005. There was one amendment to the budget during the year. The District's budgetary comparison is presented as required supplementary information and shown on page 18. Highlights for the year are as follows:

- General Fund revenues from ad valorem taxes were approximately \$15,085 higher than projected due to an increase in assessed values in the District.

- The District spent significantly less on capital outlay from its General Fund than projected. As of December 31, 2005 the total capital outlay from the Bond Account was \$62,810 and the General fund was \$23,567. The budgetary comparison schedule presents information only on the General Fund.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of December 31, 2005, the District had invested \$2,235,982 in capital assets. (See table 3 below)

Capital Assets at Year End

	Governmental Activities

Major disposals included:

Equipment	<u>\$ 22,295</u>	<u>\$ -</u>
-----------	------------------	-------------

More detail information about capital assets is presented in Note 4 to the financial statements.

DEBT

In 1998, the District issued general obligation bonds totaling \$1,250,000 for the purpose of acquiring buildings, machinery and equipment, including both real and personal property, to be used in giving fire protection to the property in the District. The bonds are to be payable from ad valorem taxes.

Table 4

	Governmental Activities	
	2005	2004
General obligation bonds (back by Ad valorem taxes)	<u>\$ 740,000</u>	<u>\$ 815,000</u>

State law restricts the amount of debt that the District may issue. The aggregate principal amount of debt may not exceed 10% of the assessed valuation for property tax purposes of all real and personal property located within the District. The District's total debt outstanding at year-end was well below this limitation.

More detailed information about the debt is presented in Note 5 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS

The District's management considered many factors when setting a fiscal year December 31, 2006 budget. Amounts available for appropriation in the governmental funds are expected to increase due to an increase in the property valuations.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens and taxpayers with a general overview of the finances for those funds maintained by the Calcasieu Parish Ward 7 Fire District #1 and to show the District's accountability for the money it receives. Year Ended December 31, 2005

Net change in fund balance -- total governmental funds	\$ 173,252

Amount reported for governmental activities in the statement
of activities are different because:

Capital outlays are reported in governmental funds as expenditures.

However, in the Statement of Activities, the cost of those assets
is allocated over their estimated useful lives as depreciation expense.
This is the amount by which depreciation exceeds capital outlays in
the period:

Depreciation expense	(115,115)	
Capital outlays	<u>86,377</u>	(28,738)

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets	75,000
---	--------

Interest in long-term debt in the Statement of Activities differs from
the amount reported in the governmental funds because interest
is recognized as an expenditure in the funds when it is due, and
thus requires the use of current financial resources. In the
Statement of Activities, however, interest expense is recognized
as the interest accrues, regardless of when it is due.

NOTES TO FINANCIAL STATEMENTS

December 31, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Calcasieu Parish Ward 7 Fire Protection District No. 1 was created under the provisions of Louisiana Revised Statutes 40:1492-1501, for the purpose of providing fire protection for the people of Ward 7 of Calcasieu Parish. The district is governed by a board of five commissioners appointed by the Calcasieu Parish Police Jury.

A. Basis of Presentation

The financial statements of the Calcasieu Parish Ward 7 Fire Protection District No. 1 have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

B. Reporting Entity

The District is a component unit of the Calcasieu Parish Police Jury, the financial reporting entity. The police jury is financially accountable for the District because it appoints a voting majority of the board and has the ability to impose its will on them.

The accompanying financial statements present information only on the funds maintained by the District and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

C. Basic Financial Statements – Government-Wide Statements

The Calcasieu Parish Ward 7 Fire Protection District No. 1 financial statements include both government-wide and fund financial statements. Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The Calcasieu Parish Ward 7 Fire Protection District No. 1 net assets are reported in four parts – invested in capital assets (net of related debt), restricted for debt service and capital asset purchasing, and unrestricted net assets.

The government-wide Statement of Activities reports both the gross and net cost of each of the Calcasieu Parish Ward 7 Fire Protection District No. 1 functions. The functions are supported by general government revenues. The Statement of Activities reduces gross expenses (including depreciation) by any related program revenues, which must be directly associated with the function. The net cost (by function) is normally covered by general revenues.

NOTES TO FINANCIAL STATEMENTS (Continued)

December 31, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basic Financial Statements – Government - Wide Statements (Continued)

This government-wide focus is more on the sustainability of the Calcasieu Parish Ward 7 Fire Protection District No. 1 as an entity and the change in the District's net assets resulting from the current year's activities.

D. Basic Financial Statements – Fund Financial Statements

The financial transactions of the District are recorded in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures. The various funds are reported by generic classification within the financial statements.

The District uses the following fund types:

- a. General fund is the general operating funds of the District. It is used to account for all financial resources except those required to be accounted for in another fund.
- b. Capital projects fund is used to account for financial resources to be used in the acquisition or construction of major capital facilities and equipment.
- c. Debt service fund accounts for transactions relating to resources retained and used for the payment of principal and interest on the long-term obligations of the District.

The emphasis in fund financial statements is on the major funds in the governmental category. GASB Statement No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues, or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. All three of the Districts governmental funds are considered major funds.

E. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1. Government-wide Financial Statements:

The governmental funds in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Revenues of the Calcasieu Parish Ward 7 Fire Protection District No. 1 consist principally of property taxes, other intergovernmental revenues, donations, and interest income. Property taxes are billed and generally collected within the fiscal year in which the taxes are levied. Interest income is recorded when earned. Donations and other intergovernmental revenues are recorded when received in cash because they are generally not measurable until actually received.

2. Fund Financial Statements:

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under modified accrual basis of accounting, revenue is recorded when susceptible to accrual: i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this rule is the principal and interest on general obligation long-term debt, if any, is recognized when due. Depreciation is not recognized in the governmental fund financial statements.

D. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with an original maturity of three months or less.

E. Accounts Receivable

Uncollectible amounts due for ad valorem taxes are recognized as uncollectible using the allowance method. The allowance for uncollectible accounts at December 31, 2005, was \$8,437.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Capital Assets

Capital assets purchased or acquired with an original cost of \$200 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Building and building improvements	15 – 50 years
Equipment	5 – 20 years

G. Budgets

A budget is adopted on a basis consistent with generally accepted accounting principles. An annual appropriated budget is adopted for the general fund expenditures. All annual appropriations lapse at fiscal year end.

On or before the last meeting of each year, the budget is prepared by fund, function, and activity and includes information on the past year, current year estimates, and requested appropriations for the next fiscal year.

The proposed budget is presented to the district's Board of Commissioners for review. The board holds a public hearing and may add to, subtract from, or change appropriations, but may not change the form of the budget. Any changes in the budget must be within the revenues and reserves estimated.

Expenditures may not legally exceed budgeted appropriations by more than five percent.

H. Long-term Obligations

Long-term obligations are reported as liabilities in the government-wide statements. Long-term debt is recognized as a liability of a governmental fund when due. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as fund liability of a governmental fund.

I. Fund Equity

Reserves represent those portions of fund equity not appropriable for expenditure or legally segregated for a specific future use. Designated fund balances represent tentative plans for future use of financial resources.

NOTE 2 - AD VALOREM TAXES

For the year ended December 31, 2005, taxes of 16.25 mills were levied on property with assessed valuations totaling \$25,852,030 dedicated as follows:

Maintenance	10.00 mills
Bond Sinking	6.25 mills

Total taxes levied were \$419,393.

Property tax millage rates are adopted in July for the calendar year in which the taxes are levied and recorded. All taxes are due and collectible when the assessment rolls are filed on or before November 15th of the current year, and become delinquent after December 31. Property taxes not paid by the end of February are subject to lien.

NOTE 3 - CASH AND CASH EQUIVALENTS

At December 31, 2005, the district has cash and cash equivalents (book balances) as follows:

NOTE 3 - CASH AND CASH EQUIVALENTS (Continued)

Those deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. At December 31, 2005, the district has \$1,232,053 in deposits (collected bank balances). These deposits are secured from risk by \$100,000 of federal deposit insurance and \$1,255,627 of pledged securities held by the custodial bank in the name of the fiscal agent bank (GASB Category 3).

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Commissioners
Calcasieu Parish Ward 7 Fire Protection District No. 1
Calcasieu Parish Police Jury
Vinton, Louisiana

We have audited the financial statements of Calcasieu Parish Ward 7 Fire Protection District No. 1 as of and for the year ended December 31, 2005, and have issued our report thereon dated May 15, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the School Board's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School Board's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Calcasieu Parish Ward 7 Fire Protection District No. 1, the District's management, the Legislative Auditor of the State of Louisiana, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
